

Repair instructions when shipping outside the US

Filling out this Form: Please completely fill out this form and include it with your repair. Use one form for each item to be repaired. Including your email will allow us to notify you upon receipt and completion of the repair. When sending your products to Sage, it is highly recommended that you use a carrier with trackable and insurable shipping.

Packing Instructions: Please package your item in a cardboard rectangular box or other suitable container. We recommend you do NOT send it in a cylindrical tube and not in the original Sage tube. If you are sending in a reel, please include any extra spools and remove all line. If you have a broken tip, but the ferrule portion (female ferrule) is still intact then please send in a 5-6" portion of that ferrule for fitting purposes. For all other repairs, please send in the entire rod.

Repair Fees: The original owner will be responsible for a fee for each rod or reel, as outlined in the price schedule below. This fee covers the repair processing and return shipping. We accept major credit cards - Visa, MasterCard, American Express, Discover. Please note that you are responsible for any customs and duty taxes and or charges as well as shipping the rod to us. Going through a dealer may help cut down on these. If you are not the original owner, are missing a complete section or have a rod stamped DEMO, you are encouraged to contact Sage for more specific information on how to proceed with the repair.
