Wolters Kluwer has a dedicated, experienced team that handles translation and rights sales for our journals and books. We have a track record of success with a strong international reach of translated and local edition contracts across the journal portfolio.

In general we license editions excerpted from Wolters Kluwer Health published full titles to appear on a regular publication schedule with an agreed table of contents used being subject to editorial approval of the originating journals and books. There is an opportunity for appropriate sponsorship, local advertising and academic translations subject to agreement and approvals. We work closely with our Association and Society Partners to license international arrangements which are in line with their individual mission as well as with our in-house editors for our proprietary journals.

If you are interested in publishing a translation/local edition, in the first instance, please request an option on the title(s) for the language/territory you are interested and we will see if it is available to offer to you. Options are generally granted on a 90 day basis.

We have a strong presence at the Frankfurt and London Book Fairs and welcome the opportunity to meet with translators, publishers, distributors and vendors at these and other events throughout the year. Please feel free to contact the team in order to arrange appointments to discuss opportunities with us

We look forward to hearing from you soon
