REDINGTON™

NANO TITANIUM™

NANO TITANIUM™ FLY RODS

Space-age technology makes these rods the lightest, fastest, most powerful ever built.

INNOVATION

- Highest modulus ever
- First use of Nano Titanium™ in fly-fishing
- Narrowest butt diameters for lightest feeling rod
- Improved strength and fish fighting
- Fast rod loads smoothly for close or long distance casts
- Scrimless blank construction

MATERIALS

- Proprietary Nano Titanium construction
- Multi-modulus construction (84-million: butt; 57-million: mid; 44-million: tip)

COMPONENTS

- Nitrate carbide stripping guides
- Flor-grade cork
- Nano Titanium insert reel seat
- Titanium nitrate single-foot guides
- Oversized tip top
- Hook keeper

PERFORMANCE

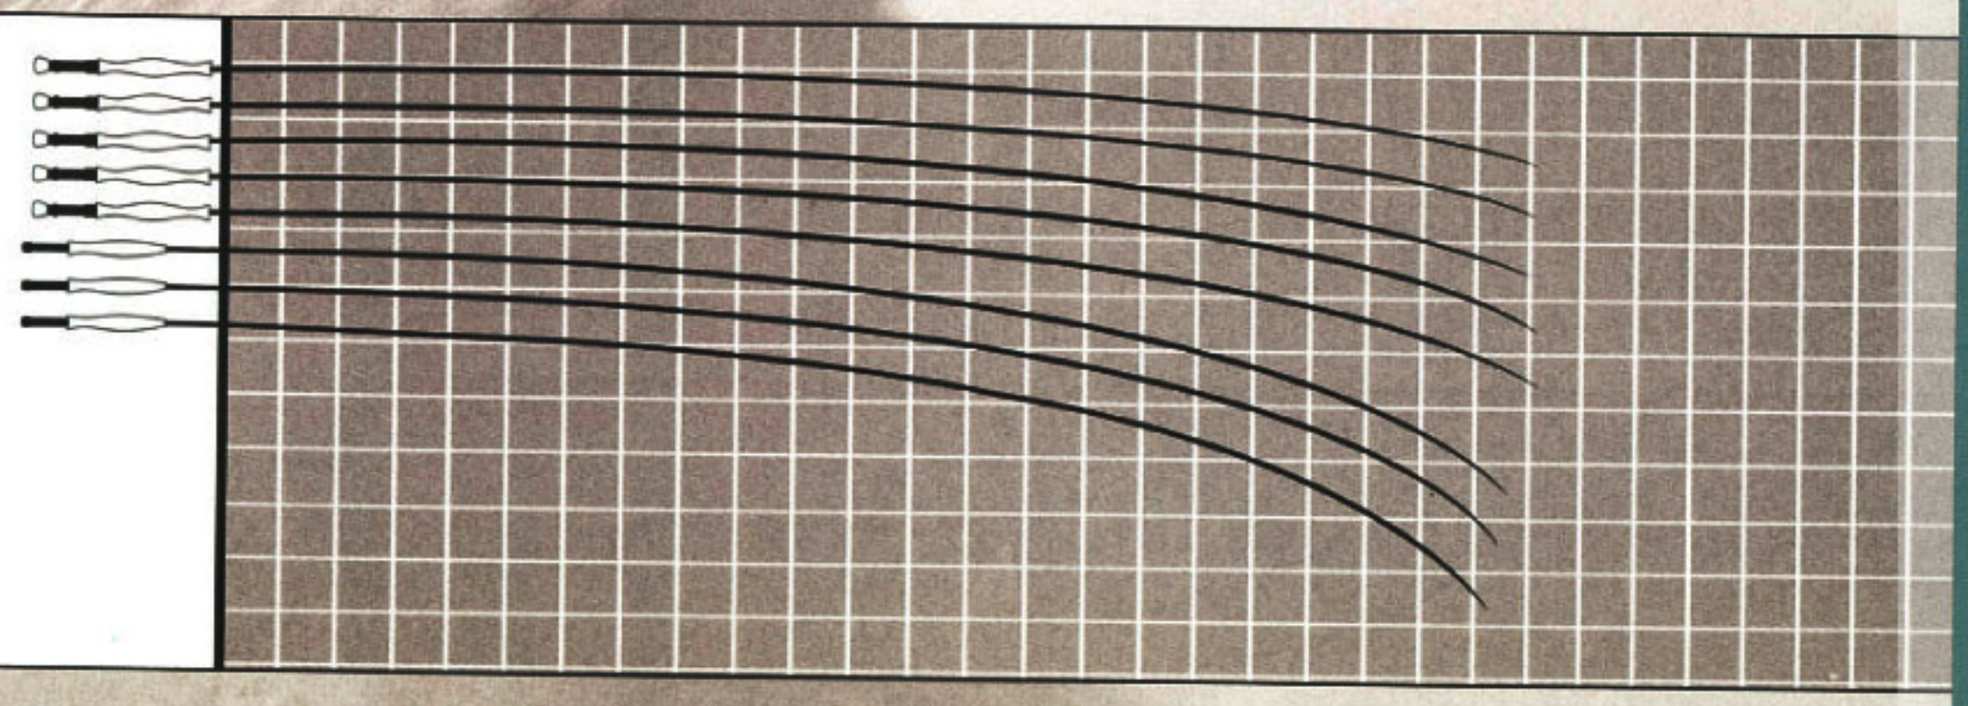

- Fast, powerful mid and butt sections
- Forgiving tip casts easy at all ranges
- Unparalleled accuracy
- Lightweight

DFR

DFR FLY RODS

By eliminating fiberglass from our design, we've created new industry standards for rod sensitivity and responsiveness.

I

- Titanium nitrate single-foot guides
- Scrimless blank construction
- True lightweight, helical wrap schedule for strength

M

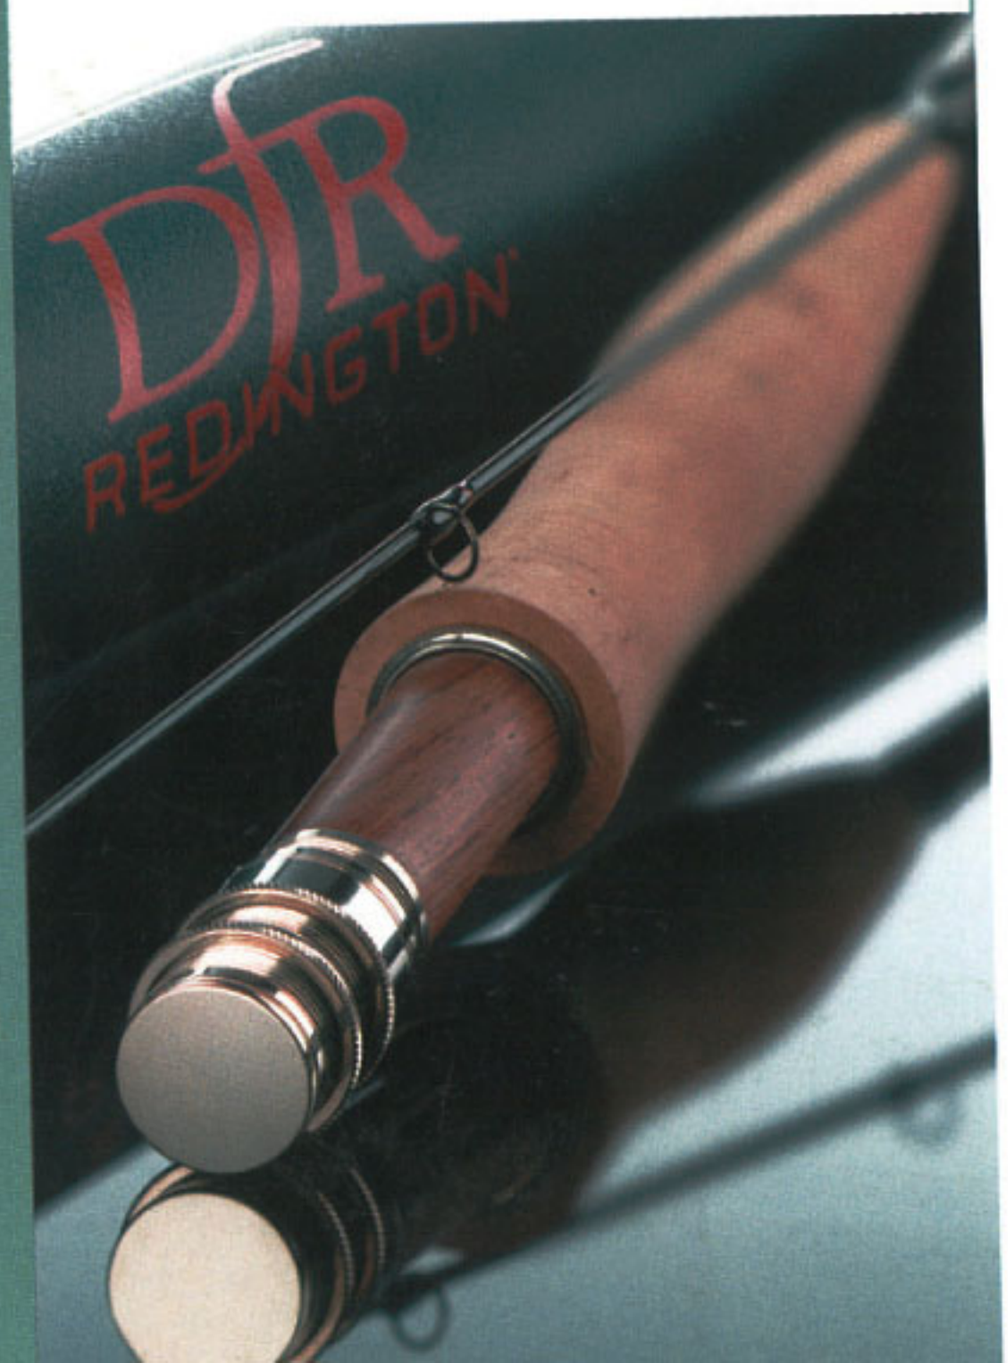

- Multi-modulus construction (57-million: butt; 57-million: mid; 43-million: tip)
- 100% graphite

C

- Rosewood and nickel silver freshwater reel seat
- Pewter-coat anodized aircraft aluminum saltwater reel seat with double uplock
- Titanium nitrate single-foot guides
- Nitrate carbide stripping guides
- Hook keeper
- Optional Ari Hart reel seat

P

- Lightweight, strong
- Smooth-loading, fast-action taper

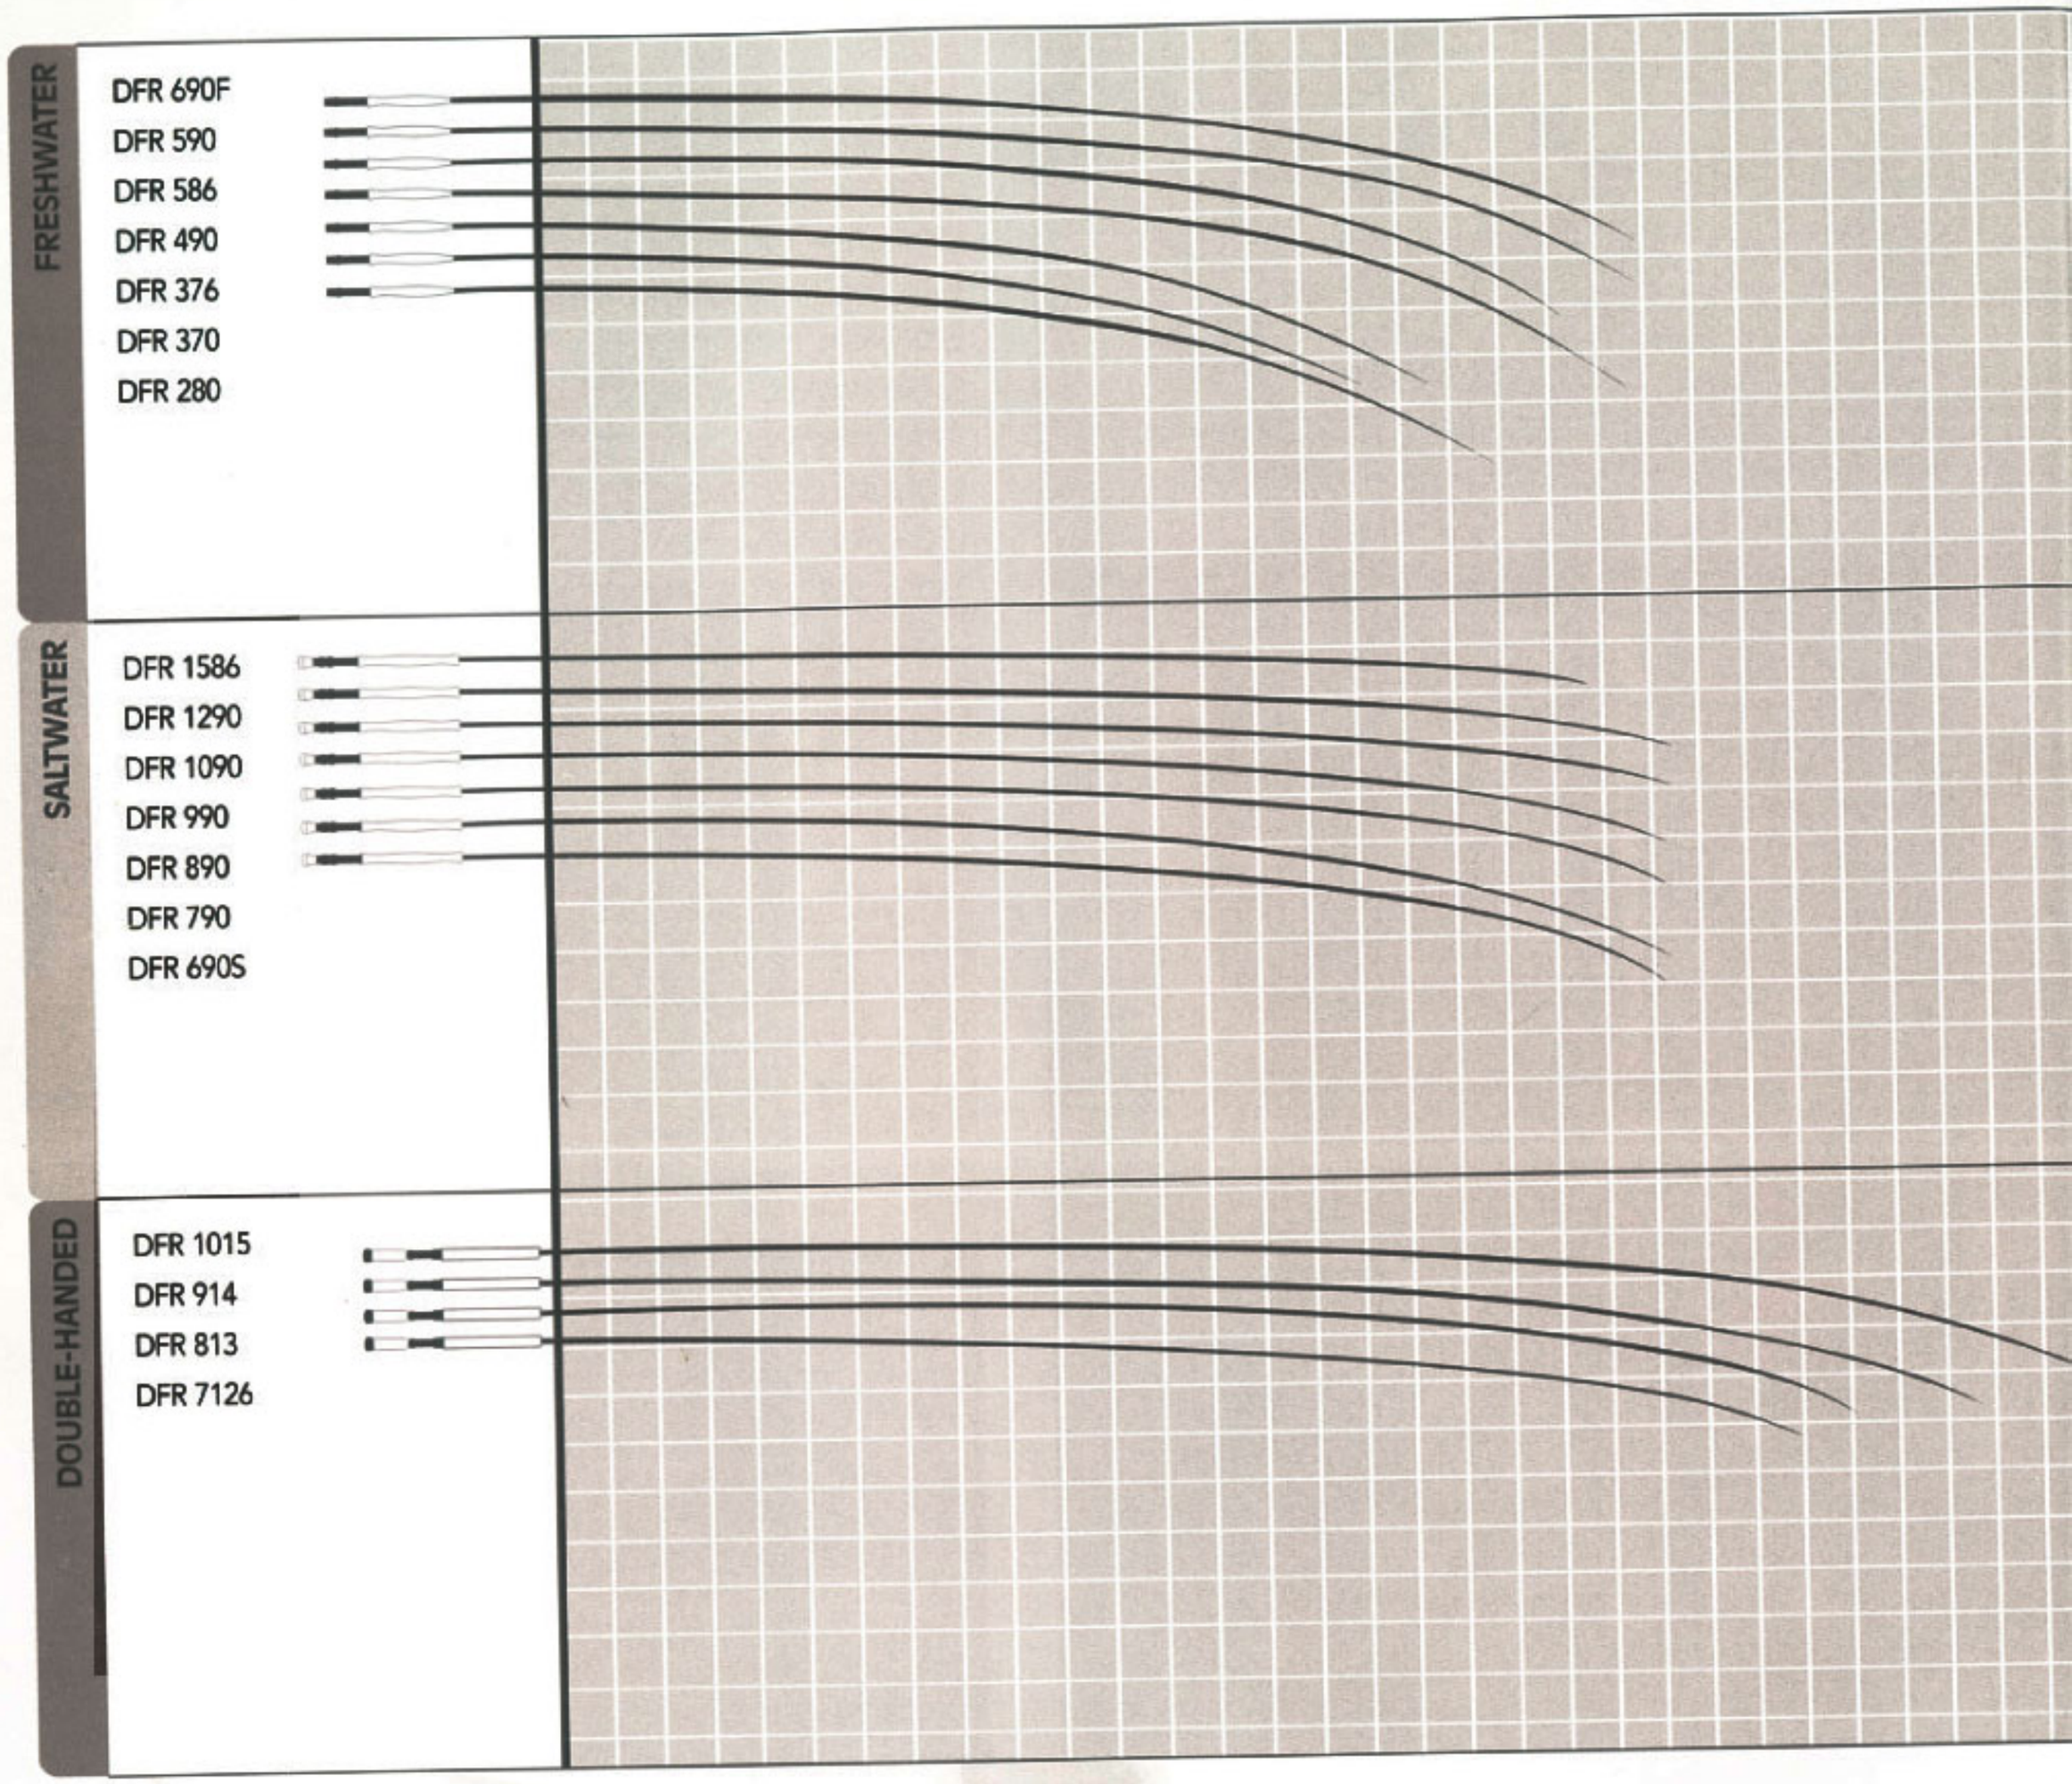

ANY UNDERLINED WORD CAN BE REFERENCED IN THE GLOSSARY BEGINNING ON PAGE 52.

WAYFARER

WAYFARER FLY RODS

To go along with the first reasonably priced five-piece travel rods, we're introducing new seven-piece models.

I

- First five-piece rod, tube and sock under $200
- Five-piece rods with smooth action
- One of lightest 5-piece rods available
- New 7-piece Wayfarers with tube

M

- 44-million modulus construction

C

- Anodized aluminum reel seat
- Rosewood insert on freshwater models
- Cork fighting butt on saltwater models
- Hard-chrome snake guides
- Select cork
- Corrosion-resistant stripping guides

P

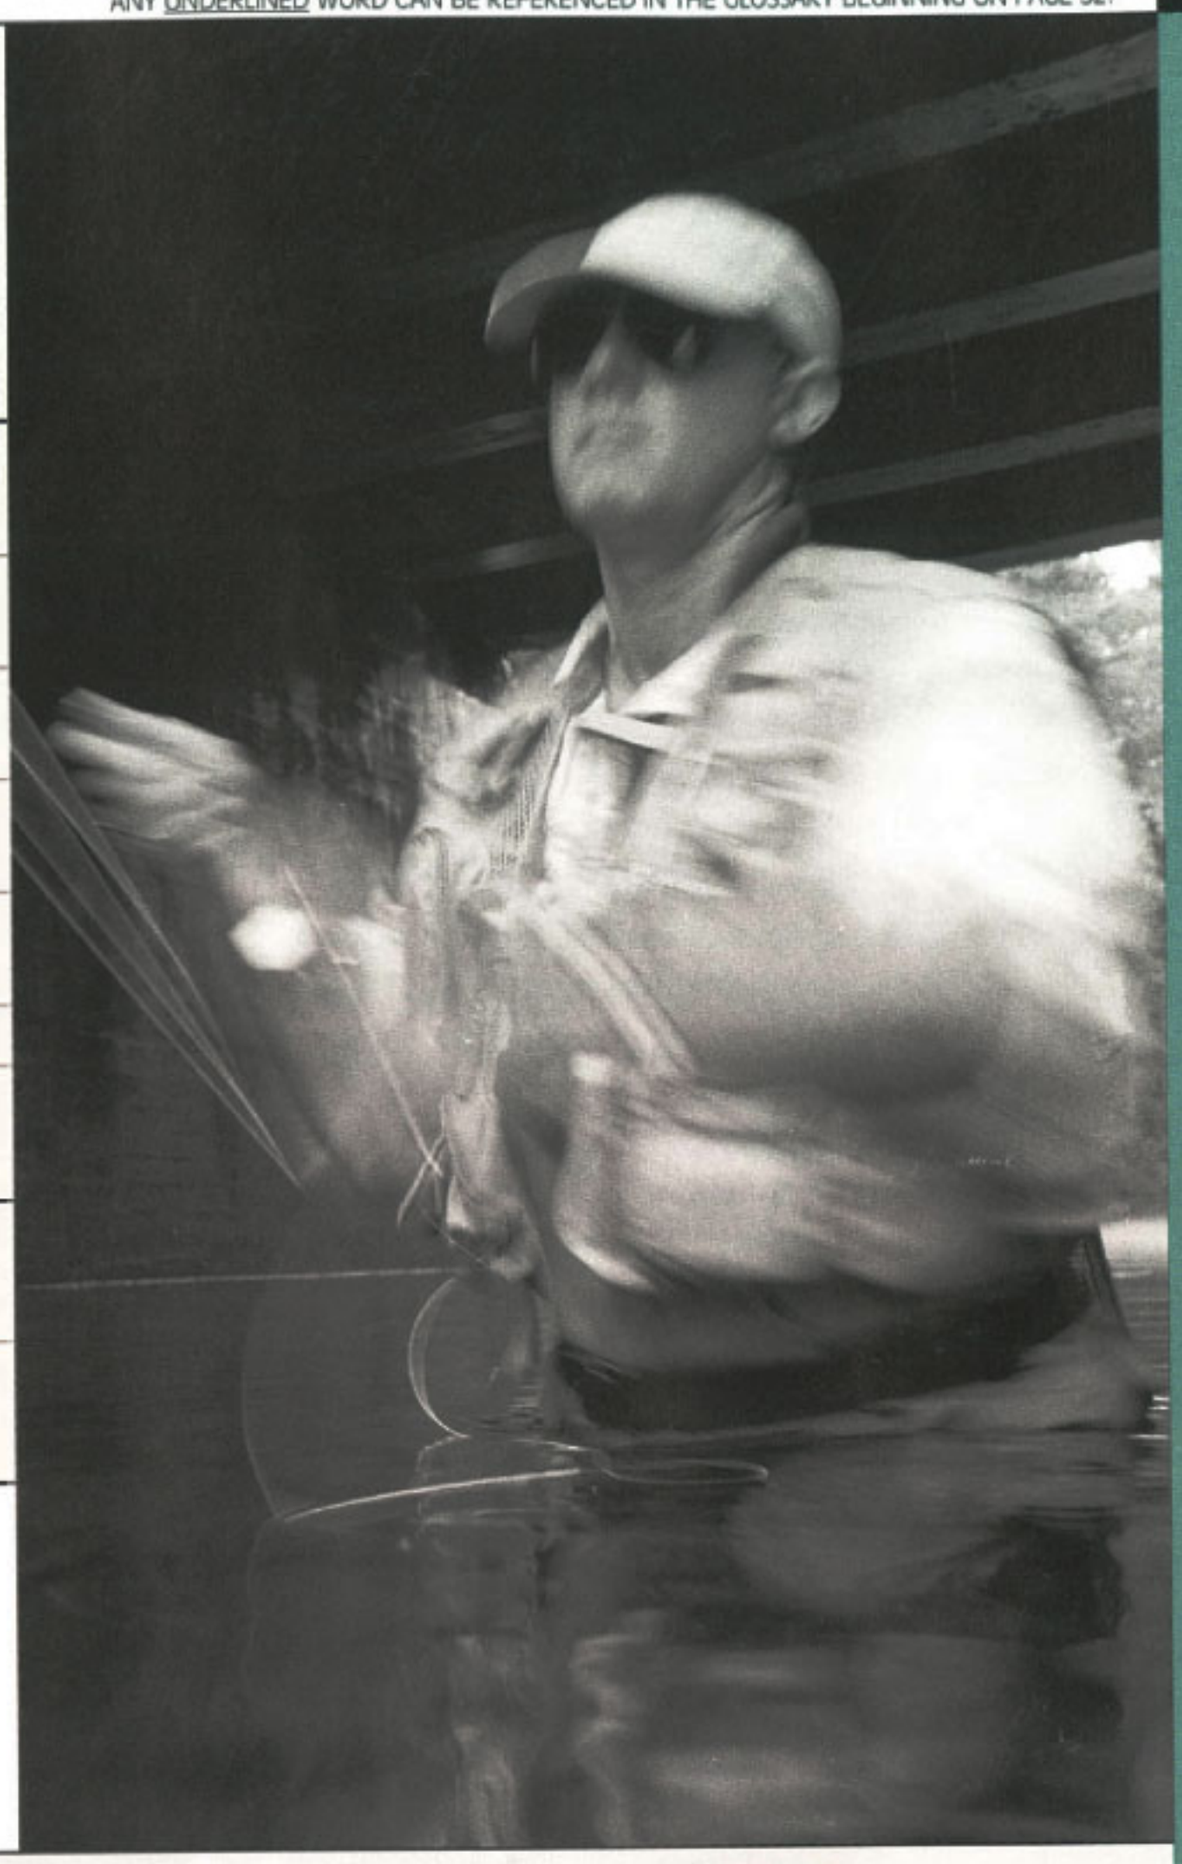

- Multi-piece rods cast like 2-piece
- Lightweight and medium fast-action
- Easy loading; no "flat spots"

Wayfarer

CLASSIC

CLASSIC FLY RODS

Our broadest range of fly rods is fit for every kind of fishing—freshwater, saltwater and bluewater.

I

» Best components and action for price
» Incredibly strong blanks with light feel
» Broadest range of rods for specific situations

M

» 44-million modulus construction

C

» Titanium carbide single-foot guides and tip top
» Hardloy stripping guides
» Anodized winding check
» Anodized aluminum reel seats on saltwater rods
» Pewter and rosewood reel seats on freshwater rods
» Forward fighting grip and oversized butt cap on bluewater rods

P

» Medium fast-action
» Strong, smooth loading blanks
» Bluewater rods built to pump large fish to surface in deep water

RS2 SERIES

RS2 FLY RODS

We may have upgraded the components and construction, but we didn't upgrade the price along with it.

I

» Price-point rods with great action
» First outfit with large arbor barstock reels

M

» 33-million modulus construction
» Compound taper blanks for sensitivity and power
» Range of high modulus graphites appropriate to application

C

» Gunsmoke-chrome snake guides and stripper frames
» Wood insert freshwater reel seat
» Hook keeper
» Fighting butt on saltwater models
» Quality cork
» Available with sock and with or without Cordora tube

P

» Range of the series offers the right action for each fishery

RS²

RS2 FLY REELS

A great reel you can lock down, with drag that has an inertia-free start-up to protect tippet.

- Anodized machined barstock frame and spool
- Stainless steel drag components
- One-way bearing eliminates play at start-up
- Bronze bushing
- Wood handle
- Holds ample backing in all line weights
- Synthetic fiber washer provides smooth drag service
- Color: Matte black

RED.FLY SERIES

RED.FLY FLY RODS

Outside Magazine rated these rods "Best for the New Millennium" and said they were the industry's best value.

I
- » Price-point rods with great tapers, components

M
- » 33-million modulus construction

C
- » Oversized tip top
- » Hard-chrome snake guides
- » Corrosion-resistant stripping guides
- » Durable reel seats

P
- » Progressive action loads easily at all ranges
- » Durable blanks for fish fighting

AL SERIES

AL SERIES FLY REEL

The quickness of the line retrieval and consistency of drag are unreal. Fortunately, the price is very realistic.

INNOVATION

- Large arbor machined disc drag reels at realistic prices

MATERIALS

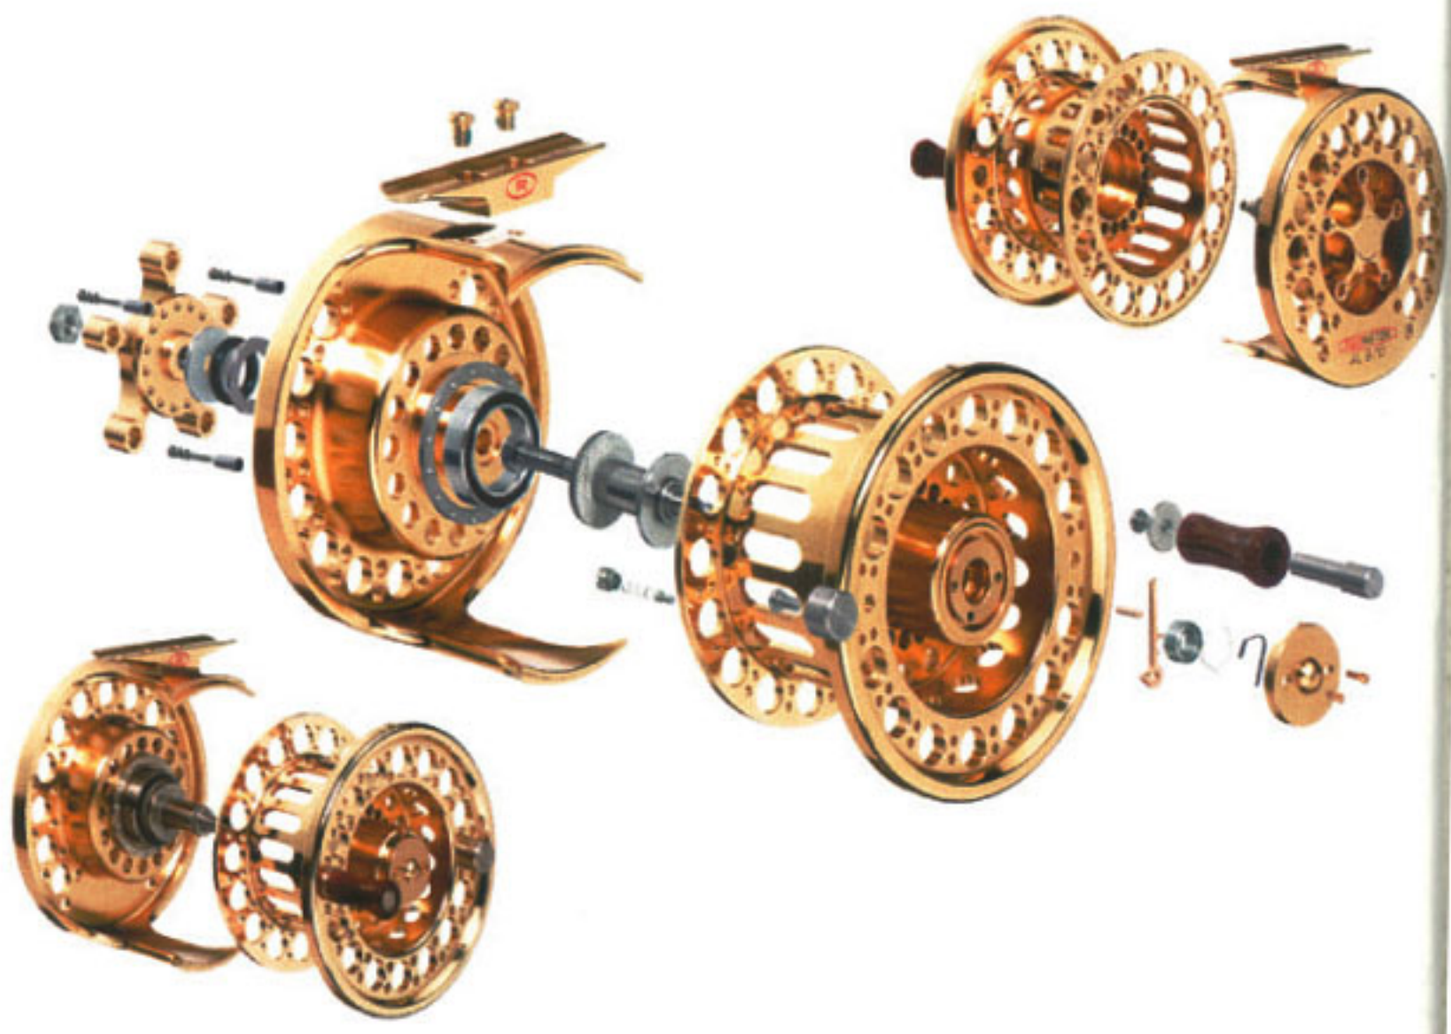

- Machined 6061 aluminum
- 2-mil anodization
- Synthetic drag disc
- Stainless steel drag components
- Stainless steel ball-bearing bronze bushing
- Finish: Black, Gold

COMPONENTS

- Synthetic center disc drag
- Stainless steel drag assembly
- One-way roller bearing

PERFORMANCE

- Quick line retrieval, consistent drag during long runs
- Minimization of line memory due to larger coils
- Synthetic fiber washer provides smooth, reliable service
- 6061 anodized aluminum resists saltwater corrosion
- One-way bearing eliminates play at start-up
