

CARE AND MAINTENANCE

To extend the life of your Drift reel, always protect the outer frame and spool. We also recommend the following easy maintenance tips:

- ✦ To clean the reel, first rinse off any dirt or grit in cool fresh water.
- ✦ Use a cloth or toothbrush to carefully remove all sand and grit from the reel with warm soapy water and rinse again.
- ✦ Separate the spool from the frame and dry thoroughly.
- ✦ Once dry, reduce the drag pressure to the lowest setting and store in the reel case.
- ✦ Always store reel away from extreme heat.

RETRIEVAL CONVERSION

- 1 Remove the spool from the frame by squeezing the hub release lever and lifting the spool free.
- 2 Reduce the clicker resistance by rotating the drag knob counter-clockwise.
- 3 With the inside of the frame facing you and the reel foot positioned at the top, use the blade of a small screw-driver or other instrument to flip the two triangular pawls in the opposite direction.
- 4 Place the spool back in the frame.
- 5 Assure correct retrieve direction and smooth operation.

WARRANTY INFORMATION

Each new Redington Drift fly reel purchased from an authorized dealer is covered by our lifetime original owner guarantee.

All repairs require the reel be sent to the Redington Warranty Department for service. Questions and inquiries regarding warranty and repair service should be directed to 1-866-498-7243. You may also view warranty details on our website or send an email to warranty@redington.com with any questions that may arise.

Congratulations on the purchase of your Redington Drift reel.

Fly fishing is *fun*! That's why we make gear that gets the most out of your time on the water. From ready-to-fish reels and outfits to a wide selection of rods, reels, waders and apparel...Redington gives you what you're looking for. Versatility that performs. Value you *need*. And, the quality you *deserve*.

With proper care and maintenance, we are certain that your new Drift reel will exceed your expectations. Further details about proper care and maintenance are contained in this booklet.
