

REDINGTON
FLY RODS & REELS

Freshwater fly rods

The Redington Freshwater Series fly rods remain distinctively the best rods at the best price. We are the only U.S. builder to define moderate priced rods as high performance and worthy of the best fit and finish.

This year we introduce three new rods in the Series. They are all 9 1/2 footers with quick but solid action that further our reputation as builders and designers of the best kinds of fly rods, workaday rods you can always be proud of. •

* Rod Building Kits: The rod building kits come in a tube and sock and include all the components we use to build our rods. It includes a performed grip, reel seat, guides and decals. The kit does not include the winding thread, glues or epoxies. The blank is marked for guide placement. We also include a guide spacing chart and simple directions. The kit is warranted for a lifetime against any breakage, just like our rods and reels. All kits include the rod tube.

** Rod Blanks: Our rod blanks come with the guide spacing chart and specifications. The blank is warranted against any breakage for a lifetime. Each blank is marked for guide placement.

The Saltwater Series and Bluewater Series flyrods have brought a new reliability and powerful fast actions to a fishery that had previously seen just one or the other. Our insistence on fishing tools has won the day in tournaments world wide as well as for pick up fishing day to day. These rods hold up and will handle a lot of line. In particular, our four piece saltwater rods have set a new price/performance standard—"the more you know the less you pay". •

Redington RED.START

Fly Rod and Reel Outfits offer the first complete premium fly rod outfits at very reasonable prices. These outfits come with our Unconditional Lifetime Guarantee on both the rod and reel.

The outfit includes:

RED.START 2 or 4 piece fly rod, RED.START aluminum cage frame fly reel, 9' tapered monofilament leader, Weight forward floating fly line, Dacron backing, Cordura carry-all rod and reel case.

This award winning series of flyrods has been greatly expanded this year. To quote Steve at the big fly shop in the big city "What can you say?" These are the best rods and represent the best value on the market. Also, they are the least expensive rods covered by an Unconditional Lifetime Warranty.

The **RED.START** outfits have revolutionized the way you can buy a good, balanced flyfishing outfit. This wide array of outfits suits the needs of both the beginner just getting into fly fishing or the expert looking to expand his fishery. •

KID.START

This project was conceived by Mel Krieger. Who better to design a special outfit that includes a rod, reel and line to get kids started? Mel knows and teaches the pure beauty and fun of good fly casting. He has designed this outfit to load quickly and give the child early control and confidence. Allen Say, Mel's friend and acclaimed children's book author has illustrated a stunning handbook for the child. This outfit and teaching book could only come from the long friendship these two have shared. We are grateful to be along for the ride •

Price: \$189.

Reels & Spools

The new Redington fly reels are machined aluminum bar stock. The U.S. built reels are the first to offer fully machined parts with a cork disc drag at such surprisingly low prices. We needed to meet the challenge of doing for reels what we have done with fly rods and the time has come where designer and the machinist can share a moment without complaint. Both agree these reels are right and ready to fish. Our reels are all stainless steel and anodized aluminum making them at home in either fresh or saltwater. •
