Separate Shade and Backplate

1. Rotate shade clockwise until it is stops and then lift shade straight off.

Note: The first time it may be difficult because the fixture has a very tight o-ring seal and a grease sealant for moisture protection.

2 Install Backplate

Hold base in correct direction as indicated by the arrow on it. Attach base onto your desired location and secure with lock screws.

Note: Wall anchors may be required for certain installation conditions (e.g. brick walls, concrete walls, etc.) Use the holes in the base to mark where to put holes in the wall. Remove base and drill proper holes on the wall, then insert wall anchors.
Strip two leads from luminaire pigtail. Using two wire connectors (not provided), connect leads from luminaire to main supply cable leads.
