

Differences Between The DS & Precedent Models

1982-Present DS Model

2004-Present Precedent Model

982-Present DS Models have a distinct square front nose with a small black plastic bumper on the lower part of the front end.

2004-Present Precedent Models have a more rounded front nose with a wide black plastic bumper that wraps all the way around the cart.

The DS Models do have a split year which is easy to tell just by looking at the seat backs. If there are 2 individual seat backs that is a characteristic of the 82-00.5 models. If there is one continuous seat back that would be indicative to the 00.5-Present models.

The Precedent will have 2 sub models which you will hear referred to as the "Champion" or "Professional" models. Easiest way to tell is the steering wheel, if you cart has a square center it is the Professional if it is round you have a Champion.

Note: If you have ANY questions regarding your cart model please feel free to contact us any time at 888-444-9994 7 Days a week.
